

MATHEMATICS BOOKS FOR SALE

A large number of mathematics (and related) books are for sale at

<http://www.mathstat.dal.ca/~dilcher/oldbooks.html>

The books include

- research monographs, many of them classics in their fields,
- upper-level textbooks,
- elementary (but university-level) textbooks,
- history and biography,
- problems and problem-solving,
- books for a general audience,
- handbooks, dictionaries, encyclopedias, tables, etc.

They cover

- all areas of pure and applied mathematics,
- some statistics and computer science,
- some other related sciences, especially physics.

Age and condition includes everything

- from the late 1800s to 2015,
- from library discards to brand-new.
- Many were donated by active and retired mathematicians.

Pricing and ordering:

- Details on the web page above. In particular:
- most books will be \$20 (hardcover) or \$10 (softcover);
- some will cost less, depending on size and condition.
- Shipping will be extra.
- All proceeds go in equal parts to the Canadian Mathematical Society and to the Dalhousie University Mathematics & Statistics Department.

Please note that these two organizations provide free technical support to the online version of *The Fibonacci Quarterly*.
