

Szabolcs Tengely

*Finding  $g$ -gonal numbers in recurrence sequences,*  
Fibonacci Quart. **46/47** (2008/2009), no. 3, 235–240.

**Abstract**

In this note we find all  $g$ -gonal numbers in the Fibonacci, Lucas, Pell and Associated Pell sequences for  $g \in \{6, 8, 9, 10, \dots, 20\}$ .
