

WINNERS OF THE PAUL BRUCKMAN PRIZE

We awarded two \$1,000 prizes to young Fibonacci mathematicians at the Caen meeting of the Fibonacci Association, 2016 July.

The award for a paper published in *The Fibonacci Quarterly* for 2014 and 2015 went to Lajos Hajdu and Márton Szikszai, *Common factors in series of consecutive terms of associated Lucas and Lehmer sequences*, *The Fibonacci Quarterly*, **53.3** (2015), 221–229.

The award for a presentation at the meeting went to Maciej Gawron, Piotr Miska, and Maciej Ulas for *Arithmetic properties of the convolutions of the Prouhet-Thue-Morse sequence*.
